Klik op 'Install'-knop io [PlantUML - Visual Studio Marketplace](#)

or

CTRL+P: `ext install jebbs.plantuml`

Marketplace - Insert Data String

- [Insert Date String - Visual Studio Marketplace](#)

Marketplace - Markdown PDF

Deze plugin werkt niet echt briljant...

"This extension converts Markdown files to pdf, html, png or jpeg files."

- [Markdown PDF - Visual Studio Marketplace](#)

Programming

Programming - index.html

In a html-file just type '!' and enter, and it will create a whole basic HTML structure.

In a html-file just type 'lorem' and enter, and it will create Lorem Ipsum text.

Quick Open

With CTRL+P you can access the Quick Open (workbench.action.quickOpen), you can reset the cache:

Do: CTRL+SHIFT+P 'Clear Editor History'
